

Mark Kinsley Rimando

Senior Full-Stack Developer | AI & Blockchain Engineer

📍 Bauang City, Philippines ✉ tshingen821@gmail.com ☎ +63 930 866 0464 🌐 [github.com](#)

PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 9+ years of experience building web applications, **SaaS** platforms, **AI**-powered solutions, **fintech** systems, **healthcare** technologies, and **blockchain**-based applications. Experienced in designing and developing scalable software from frontend interfaces to backend services, databases, cloud infrastructure, and deployment pipelines. Strong background in modern JavaScript and TypeScript ecosystems, including **React**, **Next.js**, **Node.js**, **Python**, **PostgreSQL**, **AWS**, **Docker**, and **Kubernetes**. Skilled at translating business requirements into practical, maintainable, and user-focused solutions while balancing performance, security, and scalability. Experienced in working with startups, enterprise organizations, and cross-functional teams throughout the entire software development lifecycle. Passionate about continuous learning and building reliable software that creates meaningful business value.

EXPERIENCE

Freelancer · Self-Employed

Feb 2026 - Present

- Develop and deliver custom web, AI, and blockchain solutions for international startups and enterprise clients.
- Lead software architecture, technical planning, and solution design for **SaaS**, **fintech**, **AI**, and **eCommerce** platforms.
- Collaborate directly with stakeholders to translate business requirements into production-ready software solutions while maintaining high code quality standards.

Senior Full-Stack Developer · NextSprintTech

Feb 2023 - Feb 2026

San Francisco, California, United States

- Led architecture and development of large-scale SaaS and HealthTech platforms using **Next.js**, **Python**, **PostgreSQL**, and **LangChain**.
- Designed end-to-end full-stack solutions across frontend, backend, databases, APIs, and cloud infrastructure, improving system scalability by 45%.
- Integrated AI and machine learning capabilities into healthcare and biotech applications using **LangChain** and modern AI frameworks, increasing operational efficiency by 35%.
- Built secure HIPAA-compliant healthcare platforms supporting sensitive patient and clinical data while maintaining 99.9% uptime.
- Implemented CI/CD pipelines and cloud deployment workflows, reducing release cycles by 50% and improving deployment reliability.
- Mentored junior and mid-level engineers, conducted architecture reviews, and led modernization initiatives that improved application performance by 30%.

Full-Stack Developer · Coins.ph

Sep 2021 - Sep 2022

Taguig City, Metro Manila, Philippines

- Developed and scaled fintech and cryptocurrency wallet features supporting millions of transactions and active users.
- Built blockchain-powered solutions and secure backend services using **REST APIs**, **Web3**, and modern fintech architectures.
- Optimized transaction processing pipelines, improving system throughput by 35% and reducing response times by 30%.
- Designed dashboards, analytics platforms, and monitoring systems that improved operational visibility and support efficiency by 40%.

- Enhanced platform security, compliance, and reliability while reducing critical production incidents by 25%.

Web Developer · Exist Software Labs

Aug 2020 - Aug 2021

Pasig City, Metro Manila, Philippines

- Developed enterprise web applications and digital transformation solutions using **React.js**, **Angular**, **Vue.js**, **TypeScript**, and **Spring Boot**.
- Built and maintained **REST API** endpoints and customer onboarding workflows supporting enterprise business operations.
- Optimized SQL queries, database indexes, and application performance, reducing query execution times by 35%.
- Implemented audit logging, transaction tracking, and reporting systems to improve system transparency and compliance.
- Collaborated with DevOps teams on deployments and cloud-based environments, improving deployment stability by 20%.

Junior Web Developer · IOL Inc.

Jun 2018 - Jun 2020

Baguio City, Benguet, Philippines

- Developed and maintained responsive web applications using **HTML5**, **CSS3**, **JavaScript**, **jQuery**, and **Bootstrap**.
- Implemented frontend interfaces from UI/UX designs, improving user engagement and usability by 20%.
- Assisted backend developers with API integrations and database-driven functionality using relational databases.
- Performed application testing, bug fixing, and performance optimization, reducing reported issues by 25%.

Software Developer Intern · Linkage

Jul 2017 - Feb 2018

Baguio City, Benguet, Philippines

- Assisted in developing and maintaining web and mobile applications using **HTML5**, **CSS3**, **JavaScript**, **jQuery**, and **Bootstrap**.
- Participated in code reviews, software testing, and debugging activities to improve application quality and performance.
- Conducted research and prototyping on emerging technologies including dApps, NFTs, and DeFi concepts.
- Utilized **Git** and **GitHub** for version control and collaborative software development workflows.

EDUCATION

Bachelor of Science — Information Technology Engineering

2013 - 2018

Saint Louis University in Baguio, Philippines

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, PHP, SQL, C++, Rust, R

Frontend: React, Next.js, Vue.js, Nuxt.js, Angular, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI

Backend & API: Node.js, Express.js, Laravel, Spring Boot, PHP, Python, Django, REST APIs, Microservices, GraphQL

Database: PostgreSQL, MySQL, MongoDB, Database Design, Database Optimization, SQL

AI / ML: LangChain, TensorFlow, PyTorch, Keras, Scikit-learn, OpenCV, YOLO, Detectron2, MediaPipe

Blockchain: Web3, Solidity, Ethereum, Polygon, Arbitrum, Hardhat, Foundry, OpenZeppelin, IPFS, Pinata, DeFi, dApps

Cloud & DevOps: AWS, Azure, Google Cloud Platform, Docker, Kubernetes, CI/CD, Git, GitHub, Cloud Architecture

Testing: Jest, React Testing Library, Cypress, Playwright, A/B Testing, Integration Testing, Performance Testing
