

Mark Kinsley Rimando

Senior Full-Stack Developer | AI & Blockchain Engineer

📍 Bauang City, La Union, Philippines ✉ tshingen821@gmail.com 🔗 <https://tshingen01.github.io>

PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 9+ years of experience designing, developing, and deploying scalable web applications, enterprise software solutions, SaaS platforms, fintech products, AI-powered systems, and blockchain applications. Expertise spans frontend and backend development, cloud infrastructure, microservices architecture, RESTful APIs, database design, and DevOps practices. Proven track record of delivering high-performance, secure, and user-centric solutions while leading technical initiatives, mentoring developers, and collaborating with cross-functional teams. Skilled in React, Next.js, Vue.js, Node.js, Laravel, cloud platforms, blockchain technologies, and machine learning frameworks.

EXPERIENCE

Senior Full-Stack Developer · Freelancer

Feb 2026 - Present

Remote

- Develop and deliver custom web, AI, and blockchain solutions for international startups and enterprise clients using **React, Next.js, Node.js, Laravel, and Python**.
- Lead technical planning, software architecture, and solution design for **SaaS, fintech, and eCommerce** platforms.
- Build secure **RESTful APIs, microservices, and database architectures** supporting high-volume transactions and business operations.
- Collaborate directly with stakeholders to translate business requirements into production-ready software solutions while maintaining high code quality standards.

Senior Full-Stack Developer · Sprout Solutions

Jan 2024 - Feb 2026

Makati City, Metro Manila, Philippines (Remote)

- Led development and enhancement of enterprise HR and payroll management platforms serving thousands of business users.
- Designed and implemented scalable backend services using **Node.js, Laravel, and REST APIs**, improving system reliability by 35%.
- Built modern frontend applications with **React, TypeScript**, and responsive **UI frameworks**, increasing user satisfaction and adoption.
- Mentored junior developers through **code reviews, technical guidance, and best-practice implementation**, improving team productivity by 20%.
- Collaborated with architects and product teams to define scalable software architecture and long-term platform strategies.
- Participated in **Agile ceremonies, troubleshooting, maintenance, and documentation** efforts to ensure continuous platform improvement.

Full-Stack Developer · Coins.ph

Aug 2022 - Nov 2023

Taguig City, Metro Manila, Philippines (Remote)

- Developed and enhanced fintech and **cryptocurrency** wallet features supporting millions of transactions and active users.
- Implemented blockchain integrations using **Web3, Ethereum, Solidity**, and secure API services to expand digital asset capabilities.
- Optimized transaction processing systems and backend services, reducing response times by 30% and improving platform stability.
- Built analytics dashboards, monitoring tools, and operational reporting systems using **React, Node.js, and SQL** technologies.
- Collaborated on security, compliance, and infrastructure improvements that reduced service disruptions and improved transaction reliability.

- Resolved critical production issues and implemented performance optimizations that decreased downtime by 25%.

Frontend Developer · Exist Software Labs

Mar 2020 - May 2022

Pasig City, Metro Manila, Philippines (Remote)

- Developed responsive enterprise web applications and SaaS platforms using **React.js**, **Angular**, **Vue.js**, and **TypeScript**.
- Built reusable UI components and frontend architecture that accelerated feature delivery by 30%.
- Optimized application performance, accessibility, and responsiveness, improving page load speed by 25%.
- Collaborated with backend developers, business analysts, and designers to deliver large-scale digital transformation projects.
- Implemented modern UI frameworks including **Tailwind CSS** and **Material UI** to ensure consistent user experiences.

Web Developer · IOL Inc.

Jan 2019 - Feb 2020

Baguio City, Benguet, Philippines

- Developed internal business portals and client-facing web applications using **Laravel**, **PHP**, and **MySQL**.
- Implemented responsive user interfaces and interactive features that improved user engagement by 20%.
- Collaborated with UI/UX designers and backend developers within Agile teams to deliver client requirements on schedule.
- Enhanced application performance, browser compatibility, and maintainability through code optimization and testing.

Frontend Developer Intern · Linkage

Jun 2017 - Feb 2018

Baguio City, Benguet, Philippines

- Assisted in developing responsive web pages using **HTML5**, **CSS3**, **JavaScript**, **jQuery**, and **Bootstrap**.
- Converted UI/UX designs into functional interfaces while maintaining design consistency across browsers and devices.
- Implemented mobile-friendly layouts and basic frontend interactions that improved usability and user experience.
- Utilized **Git** and **GitHub** for version control and collaborative development workflows.

EDUCATION

Bachelor of Science — Information Technology Engineering, Saint Louis University, Baguio, Philippines

TECHNICAL SKILLS

Frontend: React, Next.js, Vue.js, Nuxt.js, Angular, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI

Backend & API: Node.js, Express.js, Laravel, PHP, Python, Django, RESTful APIs, Microservices, SQL

Mobile / XR: Responsive Web Applications, Progressive Web Apps

AI / ML: TensorFlow, Keras, PyTorch, Scikit-learn, OpenCV, YOLO, Detectron2, MediaPipe

DevOps & Tools: AWS, Azure, Google Cloud Platform, Docker, Kubernetes, Git, GitHub, CI/CD, Agile, Scrum

Testing: Jest, React Testing Library, Cypress, Playwright, A/B Testing

Other: Blockchain Development, Web3, Solidity, Hardhat, Foundry, OpenZeppelin, Ethereum, Polygon, Arbitrum, IPFS, Pinata, MySQL, PostgreSQL, MongoDB, C++, Rust, R

ADDITIONAL INFORMATION

- 9+ years of professional software development experience.
- Specialized in Full-Stack Development, SaaS Platforms, Fintech Solutions, Blockchain Applications, and Artificial Intelligence.
- Experienced in enterprise software architecture, cloud infrastructure, and scalable distributed systems.
- Strong advocate of clean code, software engineering best practices, Agile methodologies, and continuous learning.
