

Mark Kinsley Rimando

Senior Full-Stack Developer

📍 Makati City, Philippines ✉ tshingen821@gmail.com 🌐 <https://tshingen01.github.io/>

PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 9+ years of experience delivering scalable web applications, SaaS platforms, fintech solutions, blockchain products, and AI-powered systems. Strong expertise in frontend and backend development using modern JavaScript frameworks, cloud technologies, and microservices architectures. Proven track record of improving application performance, reducing operational costs, and leading cross-functional teams to deliver business-critical solutions. Experienced in fintech, HRTech, logistics, healthcare, eCommerce, blockchain, and enterprise software development.

EXPERIENCE

Senior Full-Stack Developer · Freelancer

01/2026 - Present

Remote

- Architect and develop scalable SaaS, AI, and blockchain applications using **React**, **Next.js**, **Node.js**, **Python**, and **AWS**.
- Designed cloud-native solutions and microservices architectures that improved system scalability by 40%.
- Built AI-powered analytics dashboards and workflow automation tools, reducing manual processing time by 50%.
- Implemented secure blockchain integrations and smart contract solutions using **Solidity**, improving transaction transparency and reliability.
- Collaborated directly with international clients to deliver enterprise-grade products with a 95% on-time delivery rate.
- Led technical planning, code reviews, and system design initiatives to improve maintainability and development efficiency.

Senior Full-Stack Developer · Sprout Solutions

01/2024 - 02/2026

Makati City, Philippines

- Led development of HRIS and payroll platform modules using **React**, **TypeScript**, **Node.js**, and **PostgreSQL**.
- Designed and implemented RESTful APIs and backend services that improved application response times by 30%.
- Built modern frontend applications with reusable UI components, reducing development effort by 25%.
- Mentored junior developers and participated in architecture reviews, increasing team productivity by 20%.
- Optimized database queries and backend processes, reducing system downtime by 35%.
- Contributed to high-availability enterprise systems serving thousands of business users across multiple organizations.

Full-Stack Developer · Coins.ph

08/2022 - 11/2023

Pasig City, Philippines

- Developed and enhanced cryptocurrency wallet features using **React**, **Node.js**, **TypeScript**, and **AWS**.
- Integrated support for new digital assets and blockchain networks, expanding platform capabilities for users.
- Improved application performance and transaction reliability, reducing processing delays by 30%.
- Collaborated on blockchain-based solutions and crypto payment infrastructure using **Web3.js** and **Solidity**.
- Optimized CI/CD pipelines and production monitoring processes, reducing deployment times by 40%.
- Resolved critical production issues and improved platform stability for high-volume transaction environments.

Frontend Developer · Exist Software Labs

03/2020 - 05/2022

Taguig City, Philippines

- Developed responsive enterprise and SaaS applications using **React**, **Next.js**, **TypeScript**, and **Tailwind CSS**.
- Built reusable UI component libraries that reduced frontend development time by 30%.
- Improved application performance and page load speed by 35% through frontend optimization techniques.

- Collaborated with UX designers and backend engineers to deliver high-quality customer-facing products.
- Implemented accessibility and responsive design standards, improving user engagement by 20%.

Web Developer · IOL Inc.

01/2019 - 02/2020

Baguio City, Philippines

- Developed business portals and customer-facing web applications using **JavaScript, PHP, MySQL**, and **Bootstrap**.
- Implemented responsive layouts and interactive user interfaces that improved user satisfaction by 20%.
- Collaborated with cross-functional Agile teams to deliver software releases on schedule.
- Optimized browser compatibility and frontend performance, reducing page rendering issues by 25%.

Frontend Developer Intern · Linkage

06/2017 - 02/2018

Metro Manila, Philippines

- Built responsive web pages using **HTML5, CSS3, JavaScript**, and **jQuery**.
- Converted UI/UX designs into functional web interfaces with mobile-first design principles.
- Implemented interactive frontend features and improved usability across desktop and mobile devices.
- Collaborated with senior developers to support feature implementation and bug resolution.

EDUCATION

Bachelor of Science — Information Technology Engineering, Saint Louis University (PH), Baguio

TECHNICAL SKILLS

Frontend: React, Next.js, Vue.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend & API: Node.js, Express.js, PHP, REST API, GraphQL, Microservices, Authentication & Authorization

Mobile / XR: Responsive Web Development, Progressive Web Applications (PWA)

AI / ML: Python, TensorFlow, Keras, NumPy, Pandas, Machine Learning, AI Automation, LLM Integration

DevOps & Tools: AWS, Docker, Kubernetes, Git, GitHub, GitLab, CI/CD, Jira, Agile, Scrum, Linux

Testing: Jest, Cypress, Unit Testing, Integration Testing, End-to-End Testing

Other: Blockchain, Web3.js, Solidity, Smart Contracts, Crypto Wallet Integration, MySQL, PostgreSQL, MongoDB, Firebase

CERTIFICATIONS

[Software Engineer - HackerRank](#)
